

USG Cloud Computing Technology Roadmap Requirements (500-293)

1. International voluntary consensus-based standards
2. Solutions for High-priority Security Requirements, technically decoupled from organizational policy decisions
3. Technical specifications to enable development of consistent, high-quality Service-Level Agreements
4. Clearly and consistently categorized cloud services
5. Frameworks to support seamless implementation of federated community cloud environments
6. Updated Organization Policy that reflects the Cloud Computing Business and Technology model
7. Defined unique government regulatory requirements and solutions
8. Collaborative parallel strategic “future cloud” development initiatives
9. Defined and implemented reliability design goals
10. Defined and implemented cloud service metrics
