KEYNOTES & CO-CHAIRS

Tom Suder
President, MobileGov

Tom Suder, President and Founder of an advanced mobility solutions company. He currently serves as a strategic advisor for the University of Central Florida's Institute for Simulation & Training (IS&T), and works with the Mixed Emerging Technology Integration Lab (METIL), which focuses on the research and development of innovative mobile technology and Web 2.0 applications. Tom is an active member of the American Council for Technology-Industry Advisory Council (ACT-IAC) and has held leadership positions on numerous ACT-IAC committees. As someone who "walks the walk", Tom has always been an early adaptor of cloud computing, various social media and collaboration in the workplace methodologies, and cutting-edge intelligence-gathering tools to benefit his customers.

Rick Holgate, PhD.
Assistant Director for Science & Technology and CIO, ATF

H. Richard Holgate was appointed as Assistant Director for Science & Technology and Chief Information Officer on August 3, 2009 with the ATF. In that role, he is responsible for strategy, planning, management, and delivery of information technology and information services; financial investigative services; and laboratory services, in support of ATF's mission. In 2004, Dr. Holgate was appointed to be the Assistant Director for Information Technology and Command Information Officer at the Naval Criminal Investigative Service (NCIS). In 2007, he was promoted to Executive Assistant Director. Prior to joining NCIS, Dr. Holgate was employed as a Senior Manager with BearingPoint, Inc. Dr. Holgate's educational background includes degrees in chemical engineering from Princeton University (BSE) and the Massachusetts Institute of Technology (MS and PhD).

Margaret Graves
Deputy Chief Information Officer, Department of Homeland Security

Margaret H. Graves was selected in September, 2008, to serve as the U. S. Department of Homeland Security's (DHS) Deputy Chief Information Officer (CIO). As the Deputy CIO, she oversees an IT portfolio of $5.4 billion in programs. Prior Ms. Graves served as the Executive Director of the Enterprise Business Management Office within the DHS Office of the CIO. Ms. Graves has 20 years of experience in the management consulting industry where she held executive positions and also performed consulting engagements for clients. Ms. Graves holds a M.B.A. from the University of Virginia Colgate Darden Graduate School of Business Administration and a B.S. in Chemistry, also from the University of Virginia.

David L. McClure, Ph.D.
Associate Administrator, Office of Citizen Services and
Innovative Technologies, General Services Administration (GSA)

David McClure was appointed as the Associate Administrator of the Office of Citizen Services and Innovative Technologies (OCSIT) in the General Services Administration on August 26, 2009. Prior McClure served as the managing vice president for Gartner Inc.'s Government research team. McClure also served on the Obama-Biden Transformation, Innovation, and Government Reform Transition Team, which examined federal agency IT plans and status for the incoming administration. Before working at Gartner, McClure served as vice president for e-government and technology at the Council for Excellence in Government. Previously, McClure had an 18-year career with the Government Accountability Office. He is a three-time winner of Federal Computer Week's "Top Federal 100".
