| 3:00 PM – 4:00 PM | **"Can You Hear Me Now?" — The Challenges of Ubiquitous Wireless Connectivity**<br><br>While the focus of mobility has been on establishing MDMs, BYOD and Security, etc., what if you can't connect your smartphone or tablet to the Internet? Big problem. This panel will look at the challenges of implementing an in-building cellular and/or WiFi service in your facilities and the challenges related to financing, security and other issues.<br><br>Moderator: Larry Melton, GSA<br><br>Panel: Rick Lantz, VA; Thomas Sasala, Chief Technology Officer, US Army ITA; David Harrity, ED; Travis Howerton, CTO, National Nuclear Security Administration |
| 4:00 PM – 4:45 PM | **Threats to Mobile Security**<br><br>"Security" can cover a lot of completely separate systems in the mobile infrastructure from devices to identity management to the applications to the MDM/MAS. Where are the vulnerabilities from an attacker's perspective and what can be done to mitigate the risk? This panel will include "ethical hackers" that can explain the risk to those that that deal with the policies to prevent it.<br><br>Moderator: Jason Miller, Federal News Radio<br><br>Panel: Mike Lack, Invincea Labs; Dr. Jules White, Virginia Tech; Doug Britton, Kaprica; Mark McGovern, Former V.P. of Technology for In-Q-Tel, CEO, Mobile System 7 |
| 4:45 PM – 5:00 PM | Visionary Keynote – Dr. Rick Holgate, CIO, ATF |

# KEYNOTES & CO-CHAIRS

## Tom Suder
### President, MobileGov

Tom Suder, President and Founder of an advanced mobility solutions company. He currently serves as a strategic advisor for the University of Central Florida's Institute for Simulation & Training (IS&T), and works with the Mixed Emerging Technology Integration Lab (METIL), which focuses on the research and development of innovative mobile technology and Web 2.0 applications. Tom is an active member of the American Council for Technology-Industry Advisory Council (ACT-IAC) and has held leadership positions on numerous ACT-IAC committees. As someone who "walks the walk", Tom has always been an early adaptor of cloud computing, various social media and collaboration in the workplace methodologies, and cutting-edge intelligence-gathering tools to benefit his customers.

## Rick Holgate, PhD.
### Assistant Director for Science & Technology and CIO, ATF

H. Richard Holgate was appointed as Assistant Director for Science & Technology and Chief Information Officer on August 3, 2009 with the ATF. In that role, he is responsible for strategy, planning, management, and delivery of information technology and information services; financial investigative services; and laboratory services, in support of ATF's mission. In 2004, Dr. Holgate was appointed to be the Assistant Director for Information Technology and Command Information Officer at the Naval Criminal Investigative Service (NCIS). In 2007, he was promoted to Executive Assistant Director. Prior to joining NCIS, Dr. Holgate was employed as a Senior Manager with BearingPoint, Inc. Dr. Holgate's educational background includes degrees in chemical engineering from Princeton University (BSE) and the Massachusetts Institute of Technology (MS and PhD).

## Lisa Schlosser
### Deputy Associate Administrator, Office of E-Government and Information Technology, Office of Management and Budget

Lisa Schlosser currently serves as the Deputy Associate Administrator, Office of E-Government and Information Technology, Office of Management and Budget. She previously served as the Principal Deputy Associate Administrator, Office of External Affairs and Environmental Education, and the Director, Office of Information Collection, Office of Environmental Information, for the Environmental Protection Agency. Lisa also worked in the private sector as Vice-President, Business Operations and Incident Response Services, for Global Integrity, and as a Senior Manager for Ernst & Young LLP. Lisa served as a Military Intelligence Officer with the U.S. Army, and continues to serve as a Lieutenant Colonel in the US Army Reserves. Lisa holds a B.A. degree in Political Science from Indiana University of Pennsylvania, and an M.S. degree in Administration from Central Michigan University.

## Tom Temin
### Co-host of *The Federal Drive with Tom Temin and Emily Kopp*

Tom Temin is a broadcaster, writer, editor and consultant who brings more than 30 years of business-to-business media experience to clients in media and information technology products and services. Tom is co-host of *The Federal Drive with Tom Temin and Emily Kopp,* a weekday morning news and talk program on Federal News Radio 1500 AM in Washington D.C. Tom was executive vice president and editor-in-chief for PostNewsweek Tech Media, formerly an affiliate of the Washington Post Company. Tom holds a Bachelor of Science degree from the Rochester Institute of Technology, and has completed the Stanford University Professional Publishing Course. He held various editorial positions at Cahners Publishing Company in Boston and in local newspapers in Massachusetts and New Hampshire.
